WITNESSES ARE UNABLE TO GIVE DEFINITE FACTS

Witness Jumps from Three to Twelve Victims

WASHINGTON, Dec. 20.—None of the six witnesses appearing today before a senate committee was able to give first hand evidence to charges by Senator Watson, democrat, Georgia, that American soldiers had been hanged without trial in France.

George H. Taylor, of Philadelphia, thin and frail and under treatment as he himself explained for epilepsy, declared that he had seen twelve soldiers hanged or one more than the number officially listed by the war department as executed in accordance with court martial verdicts, approved by General Pershing.

Colonel Bethel pressed the witness closely as to the spelling of the name, and later informed Chairman Brandegee privately that Scott evidently was referring to the Virginian. But Scott stuck to "Opley."

Robert A. Harrison, of Wilmington, N. C., told the committee "he had witnessed two lynchings," one conducted by "Hard-boiled" Smith. The soldier, he said, was put to death for refusing to sweep a street with a "tooth brush." Early in the morning on Dec. 24, 1918, he lynchings. The man lynched he said, was a Mexican who was sprung up from a tree by officers and men for a crime against a woman.

In an effort to clear up what he regarded as the confusion in Taylor's testimony, Chairman Brandegee suggested that Colonel Bethel question the witness concerning the twelve executions concerning the twelve executions which he claimed to have seen with his own eyes. Bethel filed with the committee the official war department list of eleven executions, with places and dates.

The department list showed that two soldiers were hanged after trial at Le-Sur-Tille and it was the officers' contention that Taylor was present with other men and officers. Taylor's testimony was regarded in the nature of a confirmation of this report, as he did not know the name of one of the two soldiers executed at that place.

After hearing witnesses tomorrow, the committee will adjourn until after the holidays.

AGRICULTURE BLOC IS DEFENDED BY SENATOR CAPPER

Says That it is Rendering the Country a Great Service

(By The Associated Press) WASHINGTON, Dec. 20.—The agricultural bloc was defended in the senate today by Senator Capper, republican, Kansas, one of its leaders, as "really rendering the country a greater service at this time than any other group of men."

The Kansas senator said the bloc was seeking no special and class legislation and had no desire to hold up congress or anybody else, its program, he asserted, was directed toward bettering the general welfare of the country.

Mr. Capper said the critic who had most astonished the country was Secretary Weeks, who attacked the bloc in a recent address in New York.

"In a general attack upon a congress whose achievements are considered somewhat epochal," continued the Kansas senator, "not only did the secretary of agriculture, but many other persons competent to pass on such matters and to speak with authority, hold quite the contrary opinion of Mr. Weeks."

Mr. Capper also replied to statements attributed to Otto Kahn, New York banker, whose remarks, Mr. Capper said, would cause one to think that business sits on the right hand of government. He added that he doubted if the people of the east realized how "strangely" all the attacks on the farm bloc read to the people of the west.

These people, said Mr. Capper, referring to the west, have long ago accepted the idea that big business and finance is an established, highly-powerful and highly-efficient factor in Washington.

The senator entered a plea for the east and west to get together on what he said would be common ground, declaring that the interests of agriculture should be the interests of the industrial and financial sections, for they are equally and vitally concerned since when agriculture is sick, business invariably will be found ailing.

VALIDITY OF PACKER ACT IS TO BE TESTED

Steps Being Taken to Carry it to Supreme Court

(By The Associated Press) CHICAGO, Dec. 20.—Immediate steps will be taken to carry the packer and stock yard act to the United States supreme court for a decision on its constitutionality, it was asserted in a statement issued tonight by the Chicago Livestock exchange, commenting on a decision handed down in federal court here today dismissing application of livestock traders for an injunction order restraining enforcement of the law.

The injunction to restrain enforcement of the law was sought on the grounds that it was unconstitutional. As a result of dismissal of the injunction proceedings livestock traders will be required to file their commission schedules with the government and operate under the regulations fixed by the law or face fines provided by the act. Tonight's statement assert commission men believe the law unconstitutional because their business is local and not interstate and hence not subject to federal control. The law, the statement says, will impair if not destroy the efficiency of commercial associations of livestock commission merchants, and it is asserted the commission men are liable to be subjected to "irreparable injury."

"Their position is that the law was framed and will be carried out with the intention of establishing a system of marketing entirely different from and revolutionary to the present system which is founded on the competition of individuals and the ultimate effect of this law will be to destroy this competitive system and create a monopoly in the guise of a selling agency which will deprive the producer of the advantages of the competition of the selling of livestock, subjecting producers and shippers to irreparable injury," the statement says.

Asserting the legal status of the commission men has been defined by the supreme court the statement says. "Livestock commission men are opposed to the operation of the law because it will destroy the disciplinary power of livestock exchanges by substituting therefor an imperfect, inadequate and expensive method of supervision likely to prove seriously injurious to producers and shippers of livestock. Livestock men contend that no system can be devised which will preserve present market efficiency or maintain the existing service at less cost."

QUESTION OF DAMS TO BE TAKEN UP

(By The Associated Press) WASHINGTON, Dec. 20.—Whether the construction of dams along the Colorado river for the development of power and irrigation projects shall be undertaken by the federal government or by private interests will be one of the first questions to be decided by the interstate commission authorized by congress it was stated in a statement issued tonight by the department of commerce.

SUGAR INTERESTS ASK FOR TAX ON CUBAN RAW SUGAR

Would Increase Rate to Two or Two and One-Half Cents

(By The Associated Press) WASHINGTON, Dec. 20.—American beet and Porto Rican cane sugar interests asked the senate finance committee today for a duty of two cents a pound on Cuban raw sugar, while Louisiana cane producers and manufacturers urged that the duty be made 2.5 cents a pound. The rate proposed in the Fordney bill is 1.6 cents a pound, an increase of six-tenths of one cent over the Underwood law duty and the same rate as is now in force under the emergency tariff act. Spokesmen for the American beet and cane interests in concluding the presentation of their case declared that their industries were threatened with destruction and would be forced to suspend if the present duty were continued. This would leave the entire American field open to the Cuban cane industry, they said and declared that before congress was whether the American sugar industry which now supplies half the nation's needs, was to be sacrificed to aid Cuba.

Louisiana producers charged that the American producers in Cuba were the American refiners who always had fought against a duty on Cuban sugar. They said that if the American industry closed down, the refiners would be in a position to make big profits out of the American public.

Representatives of the American beet sugar industry said the two cent duty asked for was necessary because of the difference in costs in the United States and in Cuba.

TWO ARRESTED IN CONNECTION WITH \$150,000 THEFT

Gary, Indiana, Man and Wife are Held on the Charge

(By The Associated Press) CHICAGO, Dec. 20.—Mystery gave place to intrigue today following the arrest at Gary, Ind., of Charles Jagger, owner of an express company, and his wife in connection with theft of \$150,000 in government certificates of indebtedness. Mrs. Jagger had admitted finding the bonds on the floor of the taxi-cab in April of last year. ILLINOIS CENTRAL HEAD ASKS MEN TO REPUDIATE LEADERS

Says They Have Been Engaged in Campaign of Villification and Abuse—Says That He Does Not Believe Leaders Reflect Sentiment of Men—Asks Serious Consideration

(By The Associated Press) CHICAGO, Dec. 20.—C. H. Markham, president of the Illinois Central railroad, tonight addressed a letter to all employees of the road calling on them to repudiate "men who claim to represent you and your sentiments" and who "have been engaged in a campaign of abuse and villification to discredit the managements of the railroads in the eyes of the public."

Mr. Markham specifically named Frank J. Warne, who represented train and engine service employees before a senate committee; W. Jett Lauck of the Railway Employees' Department, American Federation of Labor, and Glenn E. Plumb, author of the Plumb plan of tripartite railway control.

"You surely will agree with me," Mr. Markham said, "that the accusations made by these men whose activities your money makes possible are wholly inconsistent with the facts."

"As an example take the case of Mr. Frank J. Warne, claiming to represent the train and engine service employees, who recently testified before the committee on interstate commerce of the United States senate, making accusation after accusation without any evidence in support."

He charged among other things that railway managements are profiting thru contracts made at excessive prices with supply companies in which railway officers are financially interested; that railway managements are violating the law prohibiting the granting of rebates, concessions and discriminations; that railway managements are granting to favored shippers the use of free transportation in violation of law and that false claims for loss and damage to freight are being paid to favored shippers. Not a shred of evidence was given in support of these accusations.

"Mr. Warne is not the only offender. Similarly unfounded charges have been made by Mr. W. Jett Lauck, and by Mr. Glenn E. Plumb.

"I cannot believe that these men calling themselves your spokesmen, reflect the true sentiment of the men of the Illinois Central system, who have worked with the management so faithfully and wholeheartedly in building up a railway system which we pride ourselves in believing is one of the greatest railway systems in the world."

DRAFT OF DECREE IN SUGAR COMPANY SUIT IS ACCEPTED

Draft is Approved by Attorney General Daugherty

(By The Associated Press) WASHINGTON, Dec. 20.—A draft of a decree to be submitted immediately to the United States supreme court in New York finally disposing of the pending antitrust suit against the American Sugar Refining Company was approved today by Attorney General Daugherty.

The decree, Mr. Daugherty said, fully safeguards the interests of the public and it is believed that the consumer can now rest assured that the price he now pays for his sugar in the future will be the result of natural, unrestrained competition. The suit against the American Sugar Refining Company, it was explained, was begun by the department of justice in November, 1910, the taking of testimony proceeding over a period of several years. Some months ago an investigation was instituted to ascertain existing conditions in the industry which resulted in the action taken today.

In substance, the attorney general said the decree finds that a combination in restraint of trade and commerce in refined sugar existed at and prior to the filing of the petition in 1910, but recognizes the changes which have occurred in the industry which may be largely attributed to the pendency of the suit.

The company, he continued has sold the stocks of many corporations, its ownership of which was challenged by the petition and in other companies has divested itself of a portion of its holdings and of control of these companies so that it no longer occupies the dominant position in the industry which it held at the time of the finding of the petition.

Sergeant York, according to the most recent interview, is not worrying about the mortgage on his farm and is not appealing for public sympathy. In fact, he told an interviewer that the last payment is not due until November of next year, when just about \$5,000 is due. All other payments have been made on time.

Public sentiment thus far has been strong in approval of the doings of the disarmament conference and the four power act. There are signs of organization against senate approval, with a few unhappy Republicans joining with the Democrats. The only unfortunate feature of the agreement is the wearisome senate debate that is in prospect.

Former Governor Lowden has shown his approval of the co-operative marketing plan by agreeing to sell the products of his 32,000 acre Arkansas plantation to

the United Growers organization of that state. The general public will be as much interested in knowing about the former governor's extensive southern holdings as they are in the statement about his method of marketing the crop.

A fine argument for brilliant street lighting is found in the records of Cleveland, Ohio. There it is shown that in the business section major crimes decreased 41 per cent after the installation of the special lighting system.

When it is remembered that 3 out of every 10 crimes are committed after sunset and before sunrise, it is easy to know that light has a very direct relationship to crime prevention. It has been often and truly said that a well lighted city is a well policed city.

Persons associated with the public utility enterprises are especially interested in the recommendation of President Harding that a constitutional amendment should be adopted to stop the issuance of non-taxable securities by states and municipalities. The adoption of such an order would have a very direct effect upon the stocks of railroads, utility and general industrial corporations.

Vast sums of money have been in past years invested in tax free securities which would have been turned into other lines of investment had it not been for the tax exemption features. The inability to secure tax free securities would naturally turn many investors to the bonds and stocks of corporations, with their possibly, some what greater risk but with the chance also of a much larger return than comes from the tax free securities.

Those who would like to attribute the steady rise in market prices of liberty bonds to unusual trading activity in those issues must look elsewhere for an explanation. Records show that in November of this year sales of Liberty bonds amounted to \$214,000,000, while in November of last year the sales were \$205,000,000. There is so little difference in the figures that the market prices could not have been affected thereby. Better business conditions and renewed confidence in the government at Washington are the real issues for the big improvement that has come in liberty issues.

## THE BIBLE AND BANKING

In the Bible story of the ten talents, the fact is related that when the lord of the vineyard returned after a long journey and called his servants together for a reckoning there was one man to whom he had given a talent who returned to his master only the bare principal. He had not invested it in any way that would yield returns. Like some miserly people today, he had simply hid-

den the money where it benefited nobody—neither himself nor his master nor the community at large. The lord of the vineyard was righteously indignant and called the one unprofitable servant "wicked" and "slothful." His lordship demanded to know why the money had not been put to the exchangers in order that the amount loaned might have been returned with interest. Thus was proclaimed the principle upon which modern bank loans and discounts are based.—Journal of the American Bankers' Association.

## WILL TEST WATER AT STATE HOSPITAL

Mr. Ketner of the state Public Health department, was in the city recently inspecting the water which is used at the state hospital. The hospital is still using water from surface wells, and it is the purpose of the health department to ascertain whether the water is still fit for use. The inspector also took samples of the city water and will compare them.

An interesting fact has been noted at the hospital. The number of parcel post packages that is being received every day for the patients has grown to be quite a problem. The Christmas gifts are arriving in an ever increasing number. The number now averages between 250 and 300 every day.

## ILLINOIS SLIPS OVER PUNCH ON ST. LOUIS U.

Coach Harmon's Men Play So Fast It Makes the Visitors Dizzy—Let St. Louis Get Jump Then Come From Behind and Win.

Illinois College slipped over an unexpected knockout punch on St. Louis University's basketball five in David Prince gym Tuesday evening. It was a game filled with brilliant playing on the part of both teams and kept the large crowd in a constant state of excitement from the first to the last whistle.

The final score was 31 to 23 in favor of Coach Harmon's warriors who incidentally evened up the defeat by St. Louis several years ago when the visitors nosed Illinois out 22 to 18.

For a few minutes after the first tipoff it looked like St. Louis was going to run away with the game. The visitors scored seven points while Illinois was unable to score either a field basket or free throw, the Antrobush had several opportunities.

However, Illinois soon got her bearings and then it was fast and furious work until they had the visitors' tongues hanging out. There was constant action first one team and then the other getting possession of the ball. Illinois was not to be denied though, and soon took the lead. At the end of the first half the score was 15 to 13 in favor of the home boys.

Illinois kept on increasing her lead after the second half started and at one time had St. Louis 15 to 6. The visitors braced in the closing minutes of play and managed to cage several baskets, but were unable to keep it up as Illinois fought that much harder and good guarding made St. Louis take long shots from the middle of the floor.

For Illinois every man played an excellent game, Antrobush again gave a sterling exhibition, tho he was not as accurate on free throws as in the Macomb game. Hiatt at the other forward put up a fine game. He tossed several beauties and his floor work was excellent. He bids fair to prove a valuable man for Illinois when he becomes eligible, which will be in the second semester. Motion played the best ball he has shown so far this season while Cully and Jones did brilliant work at the guard positions. Cully did some fine dribbling and the St. Louis guards seemed unable to stop him.

For St. Louis Capt. Weber was the star. He handled the ball well and while he only got two field goals he was deadly on throwing fouls getting 12 during the game. Boat at center and Egler at guard also did good work for St. Louis. The score:

## SEED AND GRAIN SHOW AT THE UNIVERSITY

Event of State Wide Interest Planned for Next Month.

Instead of being a beauty event, the Seed and Grain Show to be held at the University of Illinois during January is to be an exhibit based on practical usefulness. Corn growers, from the farmer who raises "just corn" to the expert corn breeder, are already displaying interest. Special arrangements are being made to make the show instructive. The good and weak points of each sample will be revealed. No effort will be spared to enable exhibitors and visitors to see exactly how the exhibits ranked.

The corn will be judged on the following points:

1. General appearance or the visible factors which influence the value of corn for seed. The points considered under this heading are Indentation, Kernal Composition, Kernal Characteristics, Shank Attachments, Tips of Ears and Luster or Polish. The desired indentation is medium rough to smooth. The best kernal composition is a preponderance of horny starch and a minimum of white starch. The kernal characteristics of high scoring corn are blockiness, sufficient thickness to insure a well developed germ, and a bright smooth covering over the germ. Ideal shank attachment is clear white and of medium size. Tips of the best ears are unbleached and free from weathering. Ears of bright oily luster and high polish score best.

2. Type and Uniformity or characteristics which indicate the type or variety of the corn and general uniformity of the exhibit. The special points considered include Type, Length, Color and General Uniformity.

3. Germination Record, or behavior of ten kernels from each ear in an 8 to 10 day germination test. The seedlings are scored on the basis of Vigor and Disease Freedom. Vigor is indicated by strong sturdy shoots, and a goodly number of healthy roots. Freedom from disease is associated with the lack of mold or decay on the kernal, roots, shoot and germs.

## TAILORING COMPANY SEEKS LOCATION FOR FACTORY

A representative of the Rothschild Clothing company, of Chicago, was in Jacksonville yesterday looking over the situation with a view of locating a branch factory here. The company is seeking a down-state location with the thought that there are certain advantages for such an establishment by location outside of Chicago.

The factory it is proposed to locate here would give employment to from seventy-five to one hundred people. The company is not seeking a bonus but merely desires to find a city where labor and other conditions are favorable for factory development and operation.

## AMUSING STORY OF KING'S VISIT

LONDON, Dec. 18.—An amusing story of the King of Denmark's recent visit to Greenland, was recently told by M. Aagaard, of the Danish legation, to members of the Danish club in London.

As the royal yacht was approaching Greenland, a dark speck became visible on the open sea. It proved to be a solitary Eskimo in his little cayak (native canoe). The Eskimo came on board and his loyalty in having braved the perils of the sea in such a frail craft assured him, needless to say, the warmest of welcomes.

The king presented him with a cigar and, what the Eskimos most highly prize, a rifle.

On landing, the king described the incident to the Danish commissioner in Greenland and asked him who the man was.

The commissioner, in accents of horror, replied: "The man is an escaped convict. He broke prison yesterday, stole a canoe, and put to sea. We thought he had been drowned."

## PRESIDENT HAS NO OBJECTION AS TO CONSTRUCTION

(Continued from page 1)  
ions and insular dominions under the four power agreement except as to territory proper of any other nation which is a party to the agreement.

"This expression," the statement continued, "has been emphasized as a division between the President and the delegates to the conference in construing the four power agreement."

"The president announced tonight that the difference in view in no wise will be permitted to embarrass the conference or the ratification of the agreement. He had assumed all along that the spirit of the conference contem-

plates a confidence which pledges receipts of territory in every way which tends to promote lasting peace.

"He has learned from the United States delegates to the conference that they have agreed to the construction which includes the homeland of Japan in the term 'insular possessions and insular dominions,' and has no objection to that construction."

### Did Not Consult Advisors

When he set forth an opposite view today, Mr. Harding was said by officials close to him to have acted without consultation with his state department advisers and without any definite purpose of announcing the attitude of the administration. It was declared that he merely was voicing a personal opinion and had no thought of precipitating a clash in conference circles.

Definition of the geographical

scope of the treaty as finally agreed to is included in Article One of the agreement and is as follows:

"The high contracting powers agree as between themselves to respect their rights in relation to their insular possessions and insular dominions in the region of the Pacific Ocean."

The white house statement tonight was the first official confirmation that an understanding did exist among the delegates as to the application of the treaty, altho there have been numerous evidences that the question was at least discussed in the secret meetings that preceded announcement of the pact at an open session of the arms conference. Baron Kato's statements in declining to discuss the president's views also revealed for the first time the precautions taken to prevent details of the negotiations from becoming public.

"I am morally bound," said Baron Kato, when asked whether an agreement on application had been reached, "to say nothing about it."

## BANK ROBBERS ARE SURROUNDED NEAR FLORA BY POSSES

Secured \$15,000 in Money  
And Negotiable  
Paper

(By The Associated Press)

FLORA, Ill., Dec. 20.—Five men believed to be the robbers who this afternoon escaped from the state bank of Iuka with \$15,000 in cash and negotiable paper are surrounded in a woods seven miles north of here by two posses. Their capture is believed imminent. Bloodhounds are enroute here from St. Elmo and will be used in trailing the men thru the thicket.

The bandits' automobile broke thru a bridge while closely pursued by a posse led by Miss Mildred Kelly, an employee of the Iuka bank, and forced the bandits to hide in the woods. A second car loaded with deputy sheriffs broke down during the chase over country highways. Miss Kelly doubled the burden of her car and had nearly overtaken the bandits when they were forced to abandon their automobile. It is believed they have the money with them.

Secure \$15,000.

Centerville, Ill., Dec. 20.—Four unmasked men, each carrying two revolvers, held up an robbed the State Bank of Iuka, northeast of here late this afternoon of \$15,000 in cash and negotiable paper. The fifth bandit sat in an automobile and drove his companions to freedom toward Tere Haute, Ind., a distance of 100 miles from here.

Two hours after the robbery here it was reported that two posses following the bandits had practically entered into a race with the fleeing gunman, with the outcome depending upon the automobiles being able to stand the strain to which they were being put.

### MEXICAN PAPER WARNS AGAINST BULL FIGHTS

Mexico City.—By The A. P.—The newspaper El Universal has started a campaign against bull fighting which appears to give promise of possible success.

In the belief that the present generation of grownups enjoys the sport so much that its prohibition is impossible, the newspaper is attempting to keep children away from fights and to that end has placed the mayor of Mexico City and the governor of the Federal District, in which Mexico City is located, on record as opposed to boys and girls witnessing the "brutal sport."

Quarter-page pictures of youngsters eagerly watching the gory sights of the arena have been printed and the newspaper asks if this is the sort of environment that makes for culture and refinement. Felix F. Palavicini, editor of El Universal, long ago placed himself on record as unalterably opposed to bull fights, altho, in deference to popular opinion, his newspaper carries exhaustive accounts of the corridas. He argues, however, that if the youngsters are now kept away from the fights the next generation will not want them.

### OLD TIME FIREMAN IS NOW CHIEF

ROCKFORD, Ill., Dec. 18.—Forty years of uninterrupted service with the Rockford fire department has earned S. A. Julian appointment as chief, succeeding Frank F. Thomas. Appointment came to Mr. Julian as a reward of merit. He did not seek it, the board of fire and police commissioners announced.

### GUARD LASSOES ESCAPED PRISONER

PHOENIX, Ariz., Dec. 20.—George Fralick, fifteen-year-old inmate of the state industrial school at Fort Grant, wounded A. J. Layton, a guard probably fatally and then escaped. He later was capted by G. A. Whalen, another guard who lassoed the boy as he would a steer.

## BANDIT ROBS PASSENGERS

(By The Associated Press)

CHICAGO, Dec. 20.—An armed bandit boarded the observation car of Baltimore & Ohio train No. 6, bound for Washington, as it was passing Sixty-third street tonight and after holding up the passengers in the observation car left the train at Sixty-seventh street, according to a report made to the police tonight. The train did not stop and the bandit escaped.

Just as the train was leaving the Sixty-third street station the bandit described as shabbily dressed and armed with two revolvers appeared in the doorway of the observation coach and ordered "hands up." He walked thru the car, forcing the passengers, among them P. E. Williamson, general passenger agent for the railroad, to hand over their money and jewelry.

At Sixty-seventh street he pulled the bell cord signalling the train to stop, jumped off as it slowed down and disappeared in the darkness.

From Williamson the bandit obtained \$10 and a gold watch, according to the police, who stated that they did not believe the loss of the other passengers was large.

## COUNTERFEIT REVENUE STAMPS ARE SEIZED

CHICAGO, Dec. 20.—With the seizure today of counterfeit revenue stamps to the amount of three million dollars, federal authorities tonight expressed the belief that they have uncovered a national ring of bootleggers who have been disguising moonshine as revenue stamps through the use of these spurious stamps and bottle labels of standard brands of whisky.

Besides the stamps, 50,000 bottle labels were taken and Emilio Carlone and his wife were arrested and held under bonds of \$7,000 each. Preliminary hearing was postponed to Dec. 30. The Carlone home has been under surveillance for some time, federal agents said tonight, and expressed the belief that the two persons under arrest are merely agents for a counterfeiters' ring centering in New York. Carlone was selling a sheet of stamps for which the government charged \$6.25 for \$1.75, according to federal agents.

### GERMAN QUAKERS SEND LETTER TO HARDING

Berlin.—By The A. P.—In a letter to President Harding, sent from Berlin on the eve of the disarmament conference, Field Committee for American and English Friends, popularly known as "Quakers," expresses the conviction that there is now not only a spiritual possibility but also an economic need for laying down of all weapons of war.

"The present moment," says the letter "is one peculiarly favorable for international action and unless this is taken now the history of Western civilization may end in terror." The letter is signed by Francis J. Bacon, chairman of the Field Committee which has been supervising Quaker relief work in Germany for the past two years.

### CHRISTIANS DISTRUST TURKISH GUARANTEES

Constantinople.—Distrustful of the minority guarantee, provided for in the Franco-Turkish agreement, tens of thousands of Christians are leaving Cilicia, as the departure of the French, Turks began recruiting troops in the area evacuated by the French. Hundreds of wealthy families are already emigrating to Cyprus and Egypt, while poorer classes are awaiting transport facilities at Mersina.

The Armenian Patriarch has officially requested the British High Commissioner to advise his government to permit the emigration of Cilician Armenians to Mesopotamia.

### SCHEDULES FOR SKATING EVENTS ANNOUNCED

Fitzgerald, president of the International Skating Union. Dates have been arranged that skaters may participate in practically all the vents without conflicts.

### MILLER SHOWS BIG REVENUE

Springfield, Ill., Dec. 20.—Interest collected by State Treasurer Miller, the first eleven months in 1921 totaled \$754,190.29, it was announced today.

PEORIA, Ill., Dec. 20.—Officials of the Illinois Traction system signed an agreement today with their employees to take effect December 1st and to continue for a year. Two clauses in the con-

tract call for a reduction of five cents an hour in the wage scale and the adoption of the open shop policy.

### LANDIS TAKES HAND IN DRY CAMPAIGN

(By The Associated Press)  
CHICAGO, Dec. 20.—While the police today continued raiding in an effort to enforce the prohibition laws in Chicago, the federal courts took a hand in the matter when Judge K. M. Landis issued writs of injunction against twelve saloons and cabarets restraining them from violation of the Volstead act.

Joseph J. Merensky, assistant United States district attorney, announced that prison sentences will be asked in the future for all saloon owners who violate the Volstead act.

The courts today were still clogged with the scores of cases pending as a result of the activity of the police during the past four days.

Chief of Police Fitzmorris announced tonight that the 1922 New Year's day will be the driest in Chicago's history.

### BLOOMINGTON VOTES DOWN BOND ISSUE

(By The Associated Press)  
BLOOMINGTON, Ill., Dec. 20.—For the second time within a year the voters of the Bloomington & Normal Sanitary District today voted down a proposed bond issue of \$400,000 to enable the trustees of the district to establish a sewage disposal plant as ordered by the state rivers and lakes commission. At present the drainage of the two cities empties into Sugar Creek, an insignificant stream. The state commission a few years ago ordered the two cities to cease pollution of this stream, but both times when the bond issue to carry out this order has been submitted to the voters it has been overwhelmingly defeated.

### EASY TO PAY RUSSIAN DEBT AT PRESENT TIME

London.—By The A. P.—A debtor who, in 1914, borrowed 750,000 Russian rubles then worth about £78,000 can now repay in full with £50. Judge Russell has decided in the Chancery Division of the Royal Courts of Justice. However, a story of execution was granted with a view to an appeal.

The parties were the British Bank for Foreign Trade, which borrowed the 750,000 rubles from the Russian Commercial and Industrial Bank against securities which the borrower now sought to redeem. The lending bank, however, insisted on payment of £78,000 in sterling.

The judge held that the loan was a ruble loan repayable in rubles, either imperial Romanoff, Kerensky or Soviet issues, whichever were available. Soviet rubles were quoted at about 60 for a penny at the time of the court's decision.

#### Shoemaker

Services in memory of Mrs. Robert Shoemaker, daughter of Dr. and Mrs. A. L. Adams, were held at State Street Presbyterian church Tuesday afternoon at 2 o'clock, with a large company of friends in attendance. Mrs. Helen Ayers Bullard at the organ played music suited to the solemn occasion.

Rev. W. H. Marbach, pastor of the church, read the Scripture lesson and a prayer was offered by Rev. M. L. Pontius. Then Dr. F. S. Hayden and Dr. R. O. Post spoke briefly, the church service closing with a prayer by Rev. Mr. Marbach.

The suddenness with which death brought to a close the young life was emphasized by Dr. Hayden, as he spoke of life and its meaning. He said fortunately the value of a life is not always measured by days or months or years, and it is for that reason that it is given to some young people to exert even a wider influence in their span of life than that of others who have a longer allotment of time upon earth.

Dr. Post spoke from intimate relationship and voiced his impressions of Mrs. Shoemaker as a child of ten, a girl of sixteen and a woman of twenty-two years. He spoke with a full heart as he told of the development which he had watched thru the years, the love of the beautiful manifested in so many ways, and the unflinching courage. He said that there is a memory from this young life which brings with it a certain definite joyousness even in the hour of great sorrow.

From the church the cortege moved to Diamond Grove cemetery where the body was laid to rest in a grave beautified by a profusion of flowers. The services at the grave were conducted by Rev. T. H. Tull and Rev. Marbach.

The flowers were cared for by Mrs. John L. Johnson, Mrs. J. W. Hubble, Mrs. Harold Swain, Misses Isabel Woodman and Anna Weir Palmer.

The bearers were Messrs. Harold Swain, Ralph Baker, Mac Peters, Charles Capps, Francis Thurman and Carlyle Antrobus.

### FIFTY YEARS OF WEDDED LIFE

Golden Wedding Anniversary of Mr. and Mrs. J. W. Bowen Appropriately Observed Tuesday.

Mr. and Mrs. J. W. Bowen, who are now counted among the long time residents of Jacksonville, celebrated their golden wedding anniversary yesterday at their home on Lincoln avenue. Forty or more relatives gathered for the bounteous dinner served at the noon hour and last night relatives and friends attended a reception at the home for which the children of Mr. and Mrs. Bowen had made generous preparations.

The children of these long time residents are Mrs. W. T. Scott, Arnold; Mrs. Clarence B. Massey and Ralph E. Bowen, Jacksonville; Gilbert E. Bowen, Corpus Christi, Tex.; Mrs. Ralph Reynolds of Anaheim, Calif.; John E. and Ralph E. Bowen, Jacksonville. It was not possible for all the children to be present but in the far away states sent substantial remembrances to their parents.

The marriage of Mr. and Mrs. Bowen took place Dec. 20, 1871, in Perry, where the marriage service was performed by Rev. T. L. Smith. It was at the conclusion of a prayer meeting in the church that the company was surprised at the announcement that a marriage ceremony was to be performed. Then with relatives and friends who made up the company, Miss Jeannette McKean became the bride of J. W. Bowen.

The bride of fifty years is a native of Kentucky. The family early moved to Murrayville, where the father was one of the first merchants. As a young woman Mrs. Bowen was a visitor in Perry and it was there that she met Mr. Bowen, at that time a resident of Adams county.

The home of Mr. and Mrs. Bowen on Lincoln avenue has a name for hospitality and there have been many gatherings of friends and relatives as the years have passed. Mr. and Mrs. Bowen are active members of the Congregational church and have long been identified with the affairs of Odd Fellowship in this city. Mr. Bowen for a long period was engaged as a general contractor and in more recent years has devoted himself to the bee industry and is recognized as an authority.

For the wedding anniversary the home had been handsomely decorated in green and white colors with here and there a touch of gold as significant of the wedding anniversary. Chrysanthemums and roses were used intermingled with ferns and a yellow glow was given from the candles and their golden tinted shades.

A very elaborate menu was served at noon time and the refreshments at night were excellent. It goes without saying that the gifts were handsome and numerous. All of the children sent golden remembrances and there were equally lovely gifts from other relatives and friends.

In addition to immediate members of the family present at the dinner were the following: Mr. and Mrs. Charles McCracken of Manchester; Mr. and Mrs. James McKean of Murrayville; Mr. and Mrs. Dan Smith of Chapin, Mo.; Belle Cunningham, Miss Lucy Beatty, Mrs. Agnes Shumaker, Misses Phillips, of Jacksonville, Mr. and Mrs. Herman Shumaker of Woodson, Mo. and Mrs. Tom Story of Woodson, Mo. and Mrs. William McKean of Woodson, Mo. and Mrs. Willard McKean of Murrayville, Mr. and Mrs. Spencer of Roodhouse, Jesse Bowen of Hudson, Colo., a brother of Mr. Bowen. The grandchildren of Mr. and Mrs. Bowen are: Paul Scott, Arnold; Clarence Massey, Jr., this city; Dorothy, Geraldine and Edgar Bowen, Peoria; Harper Bowen, Cameron, Mo.; William Jr. and Lillie May of Corpus Christi.

Chicago Man Says Wife Had Been Ill a Year—Well and Happy Since Taking Tanlac

"There's bound to be something unusual about Tanlac to help a person like it has my wife," said John Rifner, 1942 Dayton street, Chicago, Ill.

"For over a year my wife suffered from stomach trouble, and at the time she started on Tanlac, was in a very badly run-down condition. No matter what she ate or how little, she had indigestion afterwards and it was simply terrible the way she suffered. Her sleep was so broken on account of nervousness that she always began the day tired out, and her nerves kept her miserable all the time. Often she was so weak and dizzy she just had to sit down to rest before she got through with breakfast.

"Well, before she had finished her first bottle of Tanlac we were mighty happy to see that it was helping her right along. She has now taken four bottles and her appetite is so fine she holds her own with our healthy children at the table, and everything agrees with her so well she has gained ten pounds in weight. She sleeps well every night, and is so well and strong she can look after her numerous household duties without a bit of trouble. I don't believe Tanlac has an equal for troubles like my wife had."

Tanlac is sold in Jacksonville by J. H. Shreve, and by leading druggists everywhere. (adv.)

THINGS NOT SO OLD

(BY ENSLEY MOORE)  
Member Illinois State Historical Society

Things Not So Old  
Younger people often ask the "Old Jacksonville" narrator, "why don't you write something about later times?" Well, the other day a Jacksonville Daily Journal of 1877 turned up, and some extracts from it will be given. They may not be as valuable or startling as older items, but may interest another class of readers.

The paper is dated Feb. 22, 1877.  
"Prostrated by Paralysis" was the heading which announced that sad fact regarding Mr. Charles N. Keiser. Mr. Keiser was the husband of the lady formerly Miss M. Lou Dewesse, and they lived opposite the Dunlap House, on State street. Mr. Keiser never recovered his health, altho he lived some time after the stroke.

Rev. George J. Barrett was spoken of, in the next column, telling of his sudden death, Feb. 19, 1877, at Bluff Springs, Cass county, this state. He had been a Methodist circuit rider and preacher in this region since 1837, "gaining a deep hold on the good will and favor of the hardy people, who were at that early day engaged in subjecting the prairies of central Illinois to their will, service and profit." He was also sent to England in 1873 under the Freedmen's bureau. He was highly spoken of in detail.

"Items"  
"Mrs. D. A. Smith and H. B. Smith departed for Cairo, this morning."

"We find on the Dunlap House register the name of our young friend George C. Guthrie, of Kansas City. Jacksonville bears a peculiar charm for George."

"William H. Johnson and wife, and Fred Williamson of St. Louis, have been at the Dunlap a day or two."

"William Boyd was an advertiser."

"The firm of King and Dayton, jewelers, dissolved. Mr. Dayton purchasing Mr. King's interest and the latter retiring. (That meant Olive Dayton and Col. John W. King.)"

"There is considerable trade in corn at 32 and 33 cents a bushel, at Chapin."

"Keener and Pike have now about 100,000 bushels of corn, and 30,000 bushels of wheat in store, at Meredosia."

**CENTRAL CHRISTIAN CHURCH**

The Sunday school of the Central Christian church is presenting on Friday evening, December 23 at 7:30 o'clock in the church auditorium a Santa Claus Cantata entitled, "A Christmas Secret" by Ira B. Wilson. The evening's entertainment is under the direction of Nelle F. Self assisted by the following committee: Mrs. Marie Hittie, Katie Vee Clarkson, Marie Finney, Homer Finney, and Mr. Roodhouse, with Mrs. Beatrice Dye Markillie at the piano.

The story centers about three children of a well-to-do home, who plan to help Santa Claus give a real Christmas to the children of the laundress. The plan is to be kept a secret and no one but the "Christmas Spirit," who is everywhere, knows anything about it until Santa happens upon it on his annual trip.

Scene I represents a room in the Allen's well-to-do home with Margaret, the eldest, at the piano, her brother Fred playing with some large mechanical toys and baby Jane playing with her family of dolls. It is here that they figure out a scheme to make the Lane family happy on Christmas.

Scene II. The scene changes to the home of the laundress, Mrs. Lane. The children are fussing over a dilapidated book, while the mother rocks the baby. The topic of conversation is Christmas. The mother explains that if she can get work she hopes to get them nice warm clothes. Jimmie has an inspiration and decides to sell holly wreaths. In the meantime he and his sister Nellie write letters to Santa for they are afraid he has forgotten them. They warn their mother to be prepared for anything.

Scene III. Represents Santa Claus' home with Mrs. Santa Claus bustling about getting ready to take a trip. Santa Claus has gone off with an agent to learn to drive a car, so that he can drive in style—and hasn't returned, which fact has upset Mrs. Santa. The postman arrives with a lot of letters—among them the letter from the Lane family. Mrs. Santa reads them and then wiping her eyes she calls to Jerry the chore-boy, to get the sleigh ready for her at once.

Soon Santa comes in. He has had an accident, the not a very serious one. He drove his car into the north pole so it will be impossible for him to make his trip by automobile. He is interrupted by a knock—and he goes to the door to meet an aviator. The aviator offers to take Santa Claus in his airplane and as it is getting late he accepts the invitation, chuckling to himself as he gathers up all the bags he can find.

Scene IV. The Allen children are hanging up stockings filled to the brim with notes pinned on them for Santa Claus. Then they scamper off to bed. Santa comes in and is more than surprised at what he finds. He reads the notes, puts the packages and stockings in his bag and leaves some packages and other nice things unwrapped in their places.

As he leaves the Allen home he hears sleigh bells that sound very familiar to him. He soon overtakes Mrs. Santa Claus to find out that she too, is on her way to the Lane family—but she had run out of

"The stores of J. H. Carver & Co. and Hyndinger & Graham would be a credit to any city, and the warehouses of Keener & Pike are as large as any on the river at Meredosia."

"John M. Ragan, Esq., was visiting his old friends in this place last week. We are always glad to see John—at Murrayville."

"Rev. Mr. Palett is now holding a series of revival meetings at the M. E. church. Much interest is manifested and much good is being accomplished at Murrayville."

"Those of the taxpayers who did not enjoin the railroad bond case met at Pisgah yesterday, and resolved to enjoin. E. P. Kirby was employed to attend to the business."

"Franklin reports there are now in the pens at this place about 15,000 bushels of corn. The price paid was 30 cents per bushel."

"Editorial"  
Part of an editorial read as follows:

"Governor Cullom, as we are advised, has determined to appoint one democrat upon the board of trustees for each of the state institutions and upon the several commissions at his disposal. This is practical 'civil' service, and will do away with the savage practice of utterly ignoring the minority party."

**Advertisers**

presents and was much distressed. He tells her about the Allen children and they set out for the Lane family together.

He explains that he had run his car into the north pole, tho he hadn't been seriously hurt. Thru the kindness of an aviator who hadn't forgotten when he was a boy he had come by airplane. He asks Mrs. Santa if he can't return with her and they agree that the old-fashioned way is best.

Scene V. The home of the Lanes. But such a happy home. They can't understand it all but are enjoying Christmas nevertheless.

## STOCK EXCHANGE HAS DULL DAY

By Associated Press.  
NEW YORK, Dec. 20.—Trading  
on the stock exchange today  
lapsed into the dullness which  
usually marks the approach of  
the holidays. Special and secondary  
issues with little public following  
were firm to strong but high class  
investment shares moved within  
contracted limits.

Bonds were heavy all the Lib-  
erty issues selling down from 70  
cents to about \$1.25 per \$100.

Minimum quotations showed  
reactions of \$2 to almost \$4,  
from November high records.

Call loans opened at 5½ per  
cent, the highest initial rate in  
several weeks subsequently ad-  
vancing to six per cent. Time  
funds were less plentiful.

Foreign exchanges made fur-  
ther rallies from last week's set-  
back, a circumstance attributed  
to latest advices respecting Ger-  
many's reparations payments.  
There were few other develop-  
ments bearing even remotely upon  
market values.

Junior steels and equipments,  
most necessities feed specialties  
and utilities of the gas and power  
division rose one to two points.  
Sales amounted to 535,000  
shares.

Various junior railway issues in  
the bond list were strong but the  
general trend was in keeping with  
the reversal sustained by the Lib-  
erty group. The public offering  
of Danish \$30,000,000 bonds was  
soon oversubscribed.

Total sales (par value) aggre-  
gated \$19,250,000.

## WHEAT MARKET SHOWS STRENGTH

By Associated Press.  
CHICAGO, Dec. 20.—Notwith-  
standing that cold wave predic-  
tions for the winter crop belt to-  
gether with lack of moisture in  
the southwest gave considerable  
strength to the wheat market to-  
day profit-taking at the last led  
to declines. The close was weak,  
1c to 3c net lower, with May  
\$1.14 to \$1.14 and July \$1.03½  
to \$1.03½. Corn lost 1c to 3c  
and oats .1c to 1c.

In provisions the outcome  
varied from unchanged figures to  
5c lower.

With a forecast out for zero  
temperatures as far south as  
Northern Kansas and with com-  
plaints current that the West-  
ern Half of Kansas had received  
no rain or snow and that the  
western half Oklahoma was also  
excessively dry, the wheat market  
averaged somewhat higher until  
the final half hour. Revised es-  
timates of world import require-  
ments counted at one time as a  
further stimulating influence.  
Setbacks in Winnipeg quotations  
however, and satisfy progress of  
the harvest in Argentina were  
more or less of an offset. Holi-  
day curtailment of the volume of  
trading, too, tended to deprive  
the market of sustained support.

Near the end of the session sell-  
ers clearly outnumbered buyers  
and the finish was at the lowest  
level of the day's range.

Corn and oats were easy in the  
absence of any special demand.  
Prospective colder weather was  
construed as bearish.

Action of the hog market  
govern provisions.

## COON RUN DRAINAGE CASE ON HEARING

The hearing relating to the  
Coon Run Drainage District is still  
in progress before Judge H. P.  
Samuel in the county court. As  
mentioned in a previous article, it  
is the purpose of the commission-  
ers of this district to dredge certain  
ditches and build additional later-  
als for the purpose of improving  
conditions in this district.

The commissioners are repre-  
sented by L. O. Vaughn, with the  
members of the Jacksonville En-  
gineering Co. as the engineers.

Objectors to the proposed work,  
or rather to some particular as-  
sessments, were heard yesterday.  
They are represented by Worth-  
ington, Reeves & Green and H. L.  
Caldwell appeared as engineer.

The work as outlined will cost  
about \$70,000. It is alleged that  
one or more of the original  
ditches in places are now so filled  
with silt that the ditch is higher  
than the lands adjoining.

**\*CHRISTMAS FIRE HAZARDS\***  
Christmas and its joys should  
not be allowed to blind men to  
the ordinary rules of safety for  
protection of the home and the  
lives of the family. And yet at  
holiday time parents who try to  
keep their children free from  
even the possibility of danger will  
install in the heart of their homes  
where it is sure to be the center  
of attraction for the little ones,  
the most inflammable thing that  
ever enters it—the ordinary ever-  
green Christmas tree. While it  
grows more dry and dangerous  
in the warm rooms they drape it  
with cotton for snow, tissue pa-  
per loops and tinsel for decora-  
tions, stick candles all over it,  
hang up toys that every child will  
grab for, and then trust to luck  
and Providence for safety from  
a hazard that may prove as dan-  
gerous and as deadly as a rattlesnake  
or an open keg of gun-  
powder. Just to play fair and  
take his share of the chances  
pater familias often surrounds  
himself with pillows, puts on cot-  
ton hair and whiskers and makes  
himself more of a menace than  
a help in case a fire should start.  
And fires do start, thousands  
of them, every holiday season.  
Firemen look forward to a run of  
Christmas tree fires just as they  
did to Fourth of July fires before  
the "sane Fourth" movement put  
an end to them in many places.  
Why not a "sane Christmas" as  
well as a "sane Fourth"? Why  
should the childrens festival be  
made the means of destroying  
hundreds of lives and thousands  
of homes? Use little electric  
lights instead of candles, asbes-  
to instead of cotton, non-com-  
bustible decorations instead of in-  
flammables, and then watch the  
tree with the utmost care, espe-  
cially when the children are  
around it. It's better to be safe  
than sorry, especially with the  
little ones at Christmas time.

**STUDENTS DESIGN**  
**CHRISTMAS CARDS**  
Two very attractive Christmas  
cards are to be seen in the display  
windows of T. M. Tomlinson's  
store. They were designed and  
painted by grade school pupils of  
Jacksonville.  
A poster in red, green and gold  
with a Christmas bell and the  
words "Gifts for Belle and Beau"  
is the work of Farrell Crabtree,  
while Vivian Pires, designer of  
the other, displays the Christmas  
spirit on a card in brown, green  
and yellow.  
Mr. Tomlinson prizes both  
highly and believes in encourag-  
ing such work in the public  
schools.

**Time to Wear**  
**Glasses?**  
There always will be a  
difference in opinion on  
how long one may safely put  
off wearing glasses. Chances  
are you have debated this  
question many times al-  
ready.  
There is only one safe  
plan to follow and that is  
to have your eyes examined  
when they begin troubling  
you and take the advice of  
a competent, conscientious  
optometrist.  
We will not advise you ex-  
cepting for your own good.
